Junior Full-Stack Developer | Java, JavaScript, SQL, React, Python | REST APIs, Databases, Frontend/Backend

Technical Skills

- **Languages:** Java, JavaScript, SQL, Python
 - **Frontend:** Vue.js, React, HTML, CSS
 - **Backend / Frameworks:** Spring Boot, Node.js
 - **Databases:** PostgreSQL, KoyebDB, Supabase
 - **Tools:** Git/GitHub, Postman, Docker, IntelliJ, VS Code, pgAdmin, JUnit, Maven, Dev Tools
 - **Other:** Figma, draw.io, Trello, Deployment (Koyeb, Apache)
-

Projects

Paw Swipe | Pet Adoption Platform

- Built a **full-stack web application** with Java/Spring Boot backend, REST API, JWT authentication, and Vue.js frontend.
- Designed relational database schema in PostgreSQL and deployed server on Koyeb.
- Developed desktop & mobile wireframes in Figma and implemented UI components, routing, and services in Vue.js.
- Tested endpoints with Postman and JUnit for accuracy and reliability.

Gig Tracker | Event Management CLI

- Developed a **command-line interface** in Java to track musician events using PostgreSQL.
 - Designed entity-relationship diagrams and implemented CRUD operations using JDBC and MVC design pattern.
-

Professional Experience

Bundle | Remote | Multimedia Content Developer | Jun 2025 – Present

- Composed and optimized music for an interactive app, collaborating with developers and designers to ensure smooth integration.
- Applied **version control and Agile workflows** to align releases with product updates.

Freelance Web Developer | Healing Hands Fund | 2024–Present

- Developed and deployed a **responsive nonprofit website** using Vue.js, HTML, CSS, and GitHub.
- Collaborated with stakeholders on design, feature implementation, and iterative updates.
- Managed version control and deployment with GitHub and Apache/Koyeb.

Freelance Musician & Educator | 2009 – 2023

- Taught hundreds of students in private and ensemble instruction at various institutions including: Plugged-in, Meridee Winters and School of Rock.
 - Worked on ten albums as a session guitarist or recording engineer.
 - Managed multiple projects and collaborated with teams, demonstrating **adaptability, creativity, and problem-solving** transferable to software development.
-

Education

Tech Elevator – Full-Stack Java Coding Bootcamp

- 700+ hours of hands-on coding in Java, Spring Boot, PostgreSQL, JavaScript, React, Vue.js.

Berklee College of Music – B.A. in Professional Music
